

MEDIA GUIDELINES

Photos

File format: JPG, RGB, minimum 2880 px width. At least 15 images.

Include interior and exterior photographs (mandatory except for interior or landscaping projects)

We require daylight professional architectural photographs, taken with specialized equipment and postproduction (perspective correction, white balance, etc) Select photos that show the best of the project's context, volume, different spaces and materials used.

Do's:

Remember to:

Make sure all photos have perspective correction

Include only daylight photos

Keep away from overcrowded photographs

Avoid excessive post production that might give an unreal look
